

Shaanxi Brilliant Machinery Co., Ltd.

Tel: 0086 29 61858368

E-mail: brilliant@brilliant-machinery.com

Website: www.brilliant-machinery.com

ABOUT US

As a professional manufacturer, Shaanxi Brilliant Machinery is specialized in kinds of metal parts, that are especially made of gray iron, stainless steel, steel, aluminum, copper, titanium, special alloys, and etc. All the parts are made by different processes including: sand castings, investment castings, centrifugal castings, die castings, forging, machining, etc.

We have served in international industrial market for over 10 years. And we have made it our FIRST goal to maintain the loyalty of existing customers and earn new business through exemplary customer care, low costs, high quality, expedited shipping, complete order fulfillment and customized machining.

ABOUT US

BRILLIANT strives to become your main source for castings, forgings, machined parts, and specialty products. No matter the size of your business, we value each customer. We provide top-notch customer care and the personal attention your business deserves. Our knowledgeable sales and engineers staff is focused on fulfilling our customer needs, while saving you time and money. You will benefit from the business relationship with the committed company who cares as much about your products as you do.

ABOUT US

For the professional care your business deserves, contact us for all your castings, forgings and machined parts. Whenever you call, you will not only be greeted by a cheerful voice, but also provided with timely quotations, friendly advice and prompt responses.

OUR PROFESSIONAL SERVICE

By cooperating with other trading companies, our factory Shaanxi Brilliant Machinery Co., Ltd. has exported our products for over 10 years to many countries and regions, such as: USA, UK, Germany, France, Italy, Middle Asia, Middle East, Africa, South Asia, etc. But now, we have our own international sales office, named Shaanxi Brilliant Import and Export Co., Ltd. During past 10 years, we have found a complete service system and the service net covers domestic and oversea market.

Brilliant Machinery has strong technical capabilities by establishing its own physics and chemistry labs and cooperating with some domestic scientific research institutes and constantly develops the products which are suitable for clients. Our Company have the perfect quality control means and complete metrology and inspection equipment. The company has formed the style of rich experience, strong design and processing capabilities, stable quality and good service, which make it establish a good reputation at home and abroad.

GUARANTEE OF HIGH QUALITY

The company has imported from Switzerland advanced photoelectric direct reading spectrometer, the 3-coordinate measuring device, X-ray detection machine, material properties testing machine, metallurgical microscope, hardness tester, cleanliness detector, leak testing machine, on-line measurement of hydrogen instrument as well as other advanced testing facilities. The accurate analysis and standard testing carried out in the raw material castings, the chemical composition of machining pieces, internal quality, mechanical performance, metallurgical organization, size precision, appearance quality, pressure performance has provided the reliable guarantee to the production process control of products.
